<p>Title: <i>"MULTIPARAMETER FACs ASSAYS TO DETECT ALTERATIONS IN CELLULAR PARAMETERS AND TO SCREEN SMALL MOLECULE LIBRARIES"</i></p>		

Sir:

The communication of April 6, 2009, indicates that the Appeal Brief filed on May 7, 2008, is defective because "a listing of the prior art relied upon in the rejection of claims" is missing.

However, the rules do not require such a listing (see MPEP §1205.02) and, as such, it is submitted that this communication was sent in error.

Such a listing should, however, be present in the Examiner's Answer, which should be drafted by the *Examiner*, not the Appellants. See MPEP §1207.02. As such, the communication may have been sent in error because of a mis-reading of the rules.

In view of the above, the Applicants submit that this case should proceed to appeal without further delay.

Respectfully submitted,  
BOZICEVIC, FIELD & FRANCIS LLP
